

### **REMARKS**

Favorable consideration and allowance of the above referenced application is respectfully requested. Claims 1-23 and 25 were pending in this application, claims 1, 15 and 19 have been amended, without prejudice, and claim 10 has been cancelled.

The examiner indicated that claim 10 would be allowable if placed in independent form, and by this amendment, the limitation of claim 10 has been incorporated into claim 1, thereby placing claims 1-9, and 12-14 in condition for allowance. Similar amendments have been made to independent claims 15 and 19, specifically specifying that the conductive material or liquid includes an adhesive capable of holding a portion of the first conductive area onto a first side of the board or substrate. Consequently, these claims, and the claims depending therefrom, being consistent with allowed claims 1 and 25, are believed to be in condition for allowance.

Entry of this amendment after final is respectfully requested as placing the application in condition for allowance, as the amendment renders moot the rejections over the prior art.

Based on the above amendments and remarks, favorable consideration and allowance of the application are respectfully requested. However should the examiner believe that direct contact with the applicant's attorney would advance the prosecution of the application, the examiner is invited to telephone the undersigned at the number given below. Note that revocation and new power forms were submitted on January 22, 2007 in this matter.

Respectfully submitted,
